

Thames Reinforcements Ltd

Sustainability Policy

The Senior Management of Thames Reinforcements is committed to fully adopting the principles and values of sustainability. We will cascade these principles throughout the Company at all levels and will incorporate them into our everyday activities. We recognize that sustainability is an important component for our business and as such we will further enhance the principles of sustainability and responsible sourcing by addressing the following as a minimum:

- Responsibly sourcing materials we use in our products, and sourcing locally where practical and appropriate
- Use life cycle thinking and life cycle assessment (LCA) methods to continually improve life cycle environmental performance
- Reducing greenhouse (GHG) emissions
- Reduce the waste that we produce, apply the waste hierarchy to waste we do produce and strive to divert waste from landfill or incineration without energy recovery
- Act as responsible stewards of the site we occupy by preventing pollution and recognising the importance of national heritage, ecological value and biodiversity.
- Reducing energy intensity and increasing energy efficiency
- Reducing the impacts of transport, both environmental and social
- Reducing our carbon footprint
- Evaluating resource use to maximise resource efficiency & use of recycled materials
- Identify & consult where necessary with local community stakeholders directly affected by our activities
- Minimise water use
- Promote the wellbeing and mental health of employees
- Support the local community by providing long term, stable employment and economic activity and developing a skilled and competent workforce.
- Promotion of ethical corporate governance in the supply chain by prioritising suppliers with public commitments these principles
- Committing to fair and equitable treatment of our suppliers
- Contribute to a diverse and stable local economy and develop mutual understanding & respect with our local community

Each item above will be discussed in depth and aligned with our procedures. We will continue to carry out our activities in a responsible manner whilst paying due diligence to the environment in which we operate, being mindful of the impacts that we can cause through our operations.

Our business will promote sustainability through every level of our company and encourage our stakeholders to adopt the same principles, offering training where required.

All Management of Thames Reinforcements are committed to continuous improvement. The principles adopted within this policy and the effectiveness of them will be reviewed during regular Management Reviews.
